SIDE FACING: Satin stainless steel
CORNERS: Satin stainless steel
CEILING: Satin stainless steel Arctos furred ceiling, **FLOOR:** Black elastic

Cabins are subject to changes by Metron without previous notice.

Metron
Engineering for Life

Light Life

Life is light
Life is motion
Life is full of changes,

from dark to bright
from conservative to creative
from bitter to sweet

Whatever the aspect,
Life is beautiful!

In Metron, we see
Life and **Lift**
through the same prism

The new Life Light cabin series is the result of combining two principal materials of a lift cabin, light and colour. We wanted to use these two elements in a radically different way compared to the current usage in the lift sector.

We managed to give the final user the ability to change the aesthetics of his cabin according to his mood, the season or the occasion. And all this easily, just by pressing a button. Life Light cabins have come to open a new chapter in the interaction between a passenger and a lift.
